The Department of Oral Health of the Université de Montréal is searching for a full-time assistant professor in pediatric dentistry with a strong interest (or background) in research.

As a professor, you will have the opportunity to contribute to the excellence of the Faculty of Dental Medicine…

…through your teaching and your research activities. You will also ensure the visibility of your discipline as well as actively participate in the operation of a renowned institution. As such, you will responsible for:

» Didactic, pre-clinical and clinical teaching in the postgraduate pediatric dentistry program mainly at Ste-Justine Children’s Hospital (CHU Ste-Justine) and in the undergraduate program, as needed;
» Participating in research in pediatric dentistry and its related fields;
» Directing research projects of residents enrolled in the graduate pediatric dentistry program;
» Contributing to research in the field of pediatric dentistry and its related fields;
» Contributing to the functioning of the Faculty of Dental Medicine and to the overall excellence of the Université de Montréal;
» Enhancing the University’s reputation by sharing your scholarly work with the scientific community and with society at large.

The requirements to succeed in this role are:

» Holder of a Masters (M.Sc.) in pediatric dentistry or having equivalent training, or in the process of obtaining a Masters (M.Sc.) in pediatric dentistry or equivalent training; having a PhD will be considered an asset. It is important to note that should the Masters not be obtained prior to the starting date of employment, the applicant will assume the position of Lecturer instead of Assistant Professor for a maximum period of up to one year;
» Holder of, or able to obtain, a permit to practice dentistry from the Order of Dentists of Quebec;
» Holder of, or eligible to obtain, certification in pediatric dentistry from The Royal College of Dentists of Canada or the National Dental Examining Board of Canada or equivalent body;
» Having an interest in multidisciplinary and complex pediatric dentistry treatment (cleft lip and palate, cranio-facial deformities and other pathological syndromes); with this in mind, professional collaboration with CHU Ste-Justine is strongly encouraged;
» Having a good knowledge of teaching and motivational techniques;
Collaborations with recognized teams in clinical and/or basic research projects are actively encouraged;

An adequate knowledge of the French written and spoken language or a strong commitment to mastering the proficiency level required, in accordance to Université de Montréal’s Language Policy. An institutional learning support program is offered to all professors wishing to learn French or improve their communication skills.

How to submit your application

We invite you to submit a letter outlining your interests and career goals, your curriculum vitae, a copy of your diplomas, and two letters of recommendation:

Dr. Robert Durand, Director

Université de Montréal is strongly committed to fostering diversity and inclusion. Through its Equal Access Employment Program (EAEP), UdeM invites applications from women, Aboriginal people, visible and ethnic minorities, as well as persons with disabilities. We will –confidentially – adapt our recruitment mechanisms to the specific needs of people with disabilities who request it.

UdeM embraces a broad and inclusive definition of diversity that goes beyond applicable laws, and therefore encourages all qualified individuals to apply, regardless of their characteristics. However, in accordance with Canadian immigration requirements, priority will be given to Canadians and permanent residents.

In order to measure the impact of its equity, diversity and inclusion actions, UdeM is collecting data on applicants identifying themselves with one of the groups targeted by the Equal Employment Opportunity Act, namely women, Aboriginal people, visible minorities, ethnic minorities and people with limitations. To this end, we thank you for completing this self-identification questionnaire. The information you provide through this form is strictly confidential and will be shared only with those responsible for the UdeM EAEP. If you wish, you may also indicate that you belong to one of the targeted groups in your cover letter, which will be reviewed by the selection committee and the assembly of peers.

Université de Montréal’s application process allows all members of the Professor’s Assembly to review the application files submitted. If you wish to keep your application confidential until the shortlist is established, please mention it in your application.
